TM

# WELCOME

What we do for you can be summed up in two words. *Right. Now.*

A global leader since 1981, Jamex designs and manufactures self-service cash, stored-value card, and credit card payment systems for copiers, computers, and printers.

## ***We Make it Right. We Do it Now.***

Our company continues to develop great new products for payment solutions. We listen to our customers and give them more than they expect. Every one of us here at Jamex is committed to providing –

- Fast answers
- Products in stock
- Superior tech support

***Right. Now.***

# WHY BUY JAMEX?

## ■ Fast answers

**We answer the telephone!** No voicemail. No difficult-to-navigate automated system. Call us toll-free at **800-289-6550** and you will speak directly with one of our customer service representatives from 8:00am until 5:30pm Eastern Time.

## ■ Products in stock

**Jamex has an extensive on-hand inventory of products** – including over 2,600 copier interface solutions. The vast majority of orders ship within 48 hours.

**We offer flexible vending system configurations** – cash (bill & coin or coin-only), stored-value card, credit card, account-based network devices, as well as customizable mounting options and accessories.

## ■ Superior tech support

**Our expert technical staff will work with you** by telephone to answer any questions or solve any problems you have with Jamex products for the life of the product.

**Jamex can help you integrate solutions** that interface with leading print management software packages, allowing for the recovery of print costs in a network print environment.

**Two-year warranty** – We guarantee our products to be free from defects in workmanship and materials for a full two years from the date of purchase. During this period, Jamex will, at its discretion, replace or repair those parts needed to restore the machine to specification.

***We Make it Right. We Do it Now.***

# MARKET SOLUTIONS

Jamex vending systems set the standard for reliability in payment solutions.

From libraries and universities to copy shops and convenience stores, Jamex products work for both the one-time user and the high-volume patron.

Our user-friendly cash, stored-value card, credit card and network-based cost recovery solutions enhance customer loyalty and generate repeat business.

Sturdy mounting systems, along with a wide range of useful vending options, allow for customized installations wherever needed.

Print vending and card revalue software further expand your payment solutions.

# CARD VENDING SOLUTIONS

Retain the familiarity of cash vending and offer the convenience, flexibility, and security of stored-value cards with the Jamex 7000 Series of products.

The 7000 Series stored-value card readers and dispensers reduce the need for staff to collect cash or to have cash in sensitive locations.

A complete solution, with controllers, dispensers, and encoding protocols, the 7000 Series provides security for your location and convenience for larger transactions using an exclusive high-security, CR80, 10mil magnetic stripe card.
