WWW.JAMEXVENDING.COM

WELCOME

Jamex, Inc. is a leading manufacturer of vending systems and payment solutions. With over a quarter century of experience vending copiers, reader printers, computers, printing and fax, Jamex, Inc. can assist you in developing payment solutions that keep pace with the changing needs of the information age.

Why Purchase from Jamex

- 1** We answer the telephone! No voicemail. No difficult-to-navigate automated system. Call us at 1-800-289-6550 and you will speak directly with one of our Customer Service Representatives.
- 2** Two Year Warranty on all Jamex products. Our goal is to help you achieve the highest long-term return on your investment. Therefore, we manufacture our products so that we can guarantee them to be free from defects in workmanship and materials for a full two years from the date of purchase. During this period, Jamex will, at its discretion, replace or repair those parts needed to restore the machine to specification.
- 3** Extensive on-hand inventory of products. We ship when you need it.
- 4** Superior Technical Support available to assist you. Toll-free technical support is available from 8:00am until 5:30pm Eastern time.
- 5** A huge inventory of copier interface solutions. Over 2600 and growing!
- 6** Flexible configurations: Cash (Coin-only or Coin & Bill), Stored-Value Card, Account-based Network Devices, Customizable Mounting Options, Fax Control and more.
- 7** We can provide integrated solutions that interface with the leading print management software packages allowing for the recovery of print costs in a networked printer environment.

CASH VENDING SOLUTIONS

Jamex offers considerable flexibility in configuring your vending system. Your choices include multi-copy units which accept coins and bills or those that accept coins only. These units can be customized with mounting systems, Stored-Value card readers, receipt printers or CashFax capabilities. A single coin – single copy model is also available.

Model 6557

The Ultimate in Flexibility for any Vending Application!

PRODUCT SPECS

- Accepts any combination of nickels, dimes, quarters and dollar coins and gives change
- Bill validator accepts \$1 bills and both new and old \$5, \$10 and \$20 bills
- Change Checker checks coin payout inventory before accepting bill and returns bill if too large for available change
- Holds over \$34 in self-replenishing change storage
- Scrolling display gives instructions and credit balance to patrons and reconciliation data to administrator
- Electronic coin validation for increased rejection of slugs and foreign coins
- Programmable for price per copy, for maximum allowable deposit and to require that a copy is made before change is given
- Bypass key for service copies

- 28 Print Management Software
- 28 Time Management Software

SOFTWARE SOLUTIONS

Jamex provides robust software solutions for stored-value card maintenance as well as for computer Print and Time management.

10mil Software Revalue Edition

Features and Functionality Combined

What's the best way to revalue your Jamex Stored-Value Cards? Jamex 10mil Software: Revalue Edition! Our 10mil Software: Revalue Edition is the perfect blend of features and functionality for your "over-the-counter" card revalue needs.

PRODUCT SPECS

- Jamex 10mil Software will work on:
- Microsoft® Windows® 2000 operating system or
 - Microsoft® Windows® XP operating system
 - Mac OS® X operating system
 - Red Hat® Linux® operating system
 - Your computer should have the latest Java™ Run-Time Environment installed and operational.

The software's interface is intuitive and easy to use. Support for multiple users allows you to track transactions by the operator, including transaction amount, transaction type, and time of day.

FEATURE	7112 CARD READER	7114 CARD READER + 10MIL SOFTWARE REVALUE EDITION
Set Value	X	X
Add Value		X
Deduct Value		X
Batch Write	X	X
PC Connection		X
User Interface	Mgmt Card + Eject Button	Point & Click
Security		Password Protection
Accounting		Transaction data available as CSV for import into spreadsheet or database

Print Management Software

Software for Printing and Access Control in the Public Environment

LPT:One Print Management software controls public access printing. Patrons are presented with the cost of their printing requests through a software client installed on each

public PC. Print Release Terminals provide the location to pay for a print job through a Jamex vending device or an optional Accounting Module.

Time Management Software

Software for Access and Session Control in the Public Environment

PCReservation software provides Access and Session Control for computers in a public environment. Session settings can be controlled separately within defined areas according to local library policies. The time

remaining in a session is always displayed on the screen. Librarians like PCReservation because the software provides the enforcement of usage time without requiring staff intervention.
